

Leo Zhang

Junior Frontend Engineer | 1.5 years experience

Email: leo.zhang@example.com

Summary

Frontend engineer focused on Vue dashboards, component reuse, and user interaction details.

Skills

Vue 3, TypeScript, Vite, Pinia, CSS, ECharts, REST API integration, basic Node.js.

Experience

2024.02 - Present Data Analytics Startup Frontend Engineer

- Built dashboard pages for candidate list, report view, trace timeline, and feedback management.
- Improved loading state and pagination interactions, reducing perceived page stutter.

2023.06 - 2023.12 E-commerce Company Frontend Intern

- Implemented product search filters and order detail pages.
- Wrote unit tests for reusable components.

Projects

Trace Timeline UI

- Designed grouped phase view with expandable agent rounds and raw protocol debug section.

Education

2019.09 - 2023.06 Nanjing University of Posts and Telecommunications B.S. Software Engineering
