

New Graduate Java Engineer Candidate 223

New Graduate Java Engineer | 9 years experience

Email: candidate223@example.com | GitHub: <https://github.com/example-dev>

Summary

Completed internship building Spring Boot APIs and campus project management system. Batch 15, domain scenario 7.

Skills

Java, Spring, internship, project, REST API, documentation, monitoring, cross-team collaboration.

Experience

2021.01 - Present Bluefin AI New Graduate Java Engineer

- Delivered production features related to Completed internship building Spring Boot APIs and campus project management system.
- Collaborated with backend, product, QA, and operations teams.
- Improved reliability, observability, and delivery quality with measurable engineering practices.
- Measured outcome: improved query cost 31% through design review, rollout control, dashboards, and incident retrospectives.

2019.07 - 2020.12 Prior Systems Engineer

- Maintained legacy modules, wrote migration plans, reviewed pull requests, and handled production defects.
- Worked with customer success and security teams to resolve escalations.

Project

Domain Platform Improvement 223

- Designed implementation plan, handled rollout, monitored metrics, and produced post-launch review.
- Evidence includes dashboards, logs, pull requests, design docs, and incident notes.

Side Project

Knowledge Base Evaluation 223

- Built retrieval test cases, labeled relevant snippets, compared lexical, embedding, and hybrid search quality.

Education

2016.09 - 2020.06 Example University B.S. Computer Science
